

RAVI RANJAN UPADHYAY

Senior Java Developer | Java Backend Developer | Spring Boot Developer | Microservices Developer | AWS Developer | Technical Lead | 14 Years Experience

Bangalore, Karnataka, India

Email: ravi

PROFESSIONAL SUMMARY

Senior Java Developer and Backend Engineer with 14 years of professional experience in software development, backend development, server side development, and enterprise application development. Expert in Java, Java 8, Java 11, Java 17, Spring Boot, Spring Boot 2, Spring Framework, Spring Cloud, Spring Security, Spring Data JPA, Spring MVC, Spring Batch, Spring AOP, Hibernate, JPA, JDBC, and REST API development. Specialist in microservices architecture, microservices development, microservices design, distributed systems, and monolith to microservices migration. Proficient in Amazon Web Services AWS including AWS EC2, AWS S3, AWS Lambda, AWS API Gateway, AWS IAM, AWS CloudWatch, AWS AMI, cloud migration, and cloud native development. Strong command of SOLID principles, object oriented programming OOP, software design patterns, Factory pattern, Strategy pattern, Repository pattern, Builder pattern, Singleton pattern, Adapter pattern, Observer pattern, and Dependency Injection. Experienced in Apache Kafka, event driven architecture, message queue, Docker, Kubernetes, OpenShift, Terraform, Jenkins, Git, GitHub, CI/CD, continuous integration, continuous deployment, DevOps, Argo CD, SonarQube, Dynatrace, Maven, Gradle, JUnit, Mockito, unit testing, integration testing, test driven development TDD, and Agile Scrum SDLC methodology. Technical Lead with experience leading teams of 6 to 8 software engineers across Healthcare, Insurance, and Media domains. Delivered 90 percent unit test coverage, 95 percent quality release rate, zero downtime blue green deployment, and Java version upgrades for high traffic production systems.

SKILLS

Java, Java 8, Java 11, Java 17, J2EE, Enterprise Java, Spring Boot, Spring Boot 2, Spring Boot 3, Spring Framework, Spring Cloud, Spring Security, Spring Data JPA, Spring MVC, Spring Batch, Spring AOP, Hibernate, JPA, JDBC, Struts2, Servlets, JSP, Microservices, Microservices Architecture, Microservices Development, Microservices Design, Microservices Patterns, REST API, RESTful Web Services, RESTful API, Web Services, API Development, API Gateway, API Design, JSON, XML, Backend Development, Backend Engineer, Server Side Development, Distributed Systems, Scalable Systems, High Availability, Event Driven Architecture, Domain Driven Design, Monolith to Microservices Migration, Monolith Migration, Application Modernization, Legacy Migration, Circuit Breaker, Feign Client, Service Discovery, Asynchronous Processing, Message Queue, Apache Kafka, Kafka Producer, Kafka Consumer, Event Streaming, Amazon Web Services, AWS, AWS EC2, AWS S3, AWS Lambda, AWS API Gateway, AWS IAM, AWS CloudWatch, AWS AMI, AWS RDS, AWS VPC, Cloud Migration, Cloud Native Development, Cloud Computing, Infrastructure as Code, IaC, Docker, Kubernetes, OpenShift, ROSA, Containerization, Orchestration, Terraform, Jenkins, Git, GitHub, Bitbucket, CI/CD, Continuous Integration, Continuous Deployment, DevOps, Argo CD, SonarQube, Dynatrace, Maven, Gradle, Build Tools, Linux, SQL, Microsoft SQL Server, SQL Server, Database Design, Database Development, Hibernate HQL, Relational Database, OAuth2, OAuth 2.0, OIDC, OpenID Connect, Okta, Identity Management, Multi Factor Authentication, HL7, HL7 Messaging, JUnit, Mockito, Unit Testing, Integration Testing, Software Testing, Test Driven Development, TDD, Code Review, Software Quality Assurance, 90 Percent Code Coverage, SOLID Principles, Design Patterns, Object Oriented Programming, OOP, Software Architecture, Software Design, Application Architecture, Software Development Life Cycle, SDLC, Agile, Scrum, Sprint Planning, Sprint Delivery, Technical Documentation, Root Cause Analysis, Performance Optimization, Production Support, Incident Management, Blue Green Deployment, Zero Downtime Deployment, Load Balancing, Auto Scaling, Technical Lead, Team Lead, Senior Java Developer, Java Developer, Java Backend Developer, Spring Boot Developer, Microservices Developer, AWS Developer, Cloud Engineer, Software Engineer, Software Developer, Backend Developer, Application Developer, Lead Developer, Enterprise Application Development, Web Application Development, Healthcare IT, Insurance Technology, Media Technology, Bangalore, India, 14 Years Experience

PROFESSIONAL EXPERIENCE

HTC Global Services Pvt Ltd

Job Title:

Client: State Farm Insurance - AWS Cloud Migration and Observability Platform

- Spearheaded migration of multiple Spring Boot microservices to AWS ROSA Red Hat OpenShift on AWS and Kubernetes

across development staging and production environments enabling cloud native auto scaling and high availability for insurance platform

- Built
boundaries

Technologies Used: Java, Java 11, Spring Boot, Spring Cloud, Spring Security, Microservices, REST API, RESTful Web Services, Apache Kafka, AWS, Amazon Web Services, AWS EC2, AWS S3, AWS Lambda, AWS API Gateway, AWS IAM, AWS CloudWatch, Docker, Kubernetes, Terraform, Jenkins, Git, CI/CD, DevOps, Argo CD, Dynatrace, SonarQube, Maven, JUnit, Mockito, Agile, Scrum

Client: Ancestry.com - Media Platform Modernization

- Led Java 8 to Java 11 upgrade for Image Processing and Media 360 REST API microservices improving application performance and remediating CVE security vulnerabilities with zero downtime deployment

- Migrat
cloud nativ

Technologies Used: Java 11, Spring Boot, Spring Security, Microservices, REST API, Apache Kafka, AWS EC2, AWS S3, AWS AMI, Docker, Kubernetes, OpenShift, Jenkins, Git, CI/CD, Maven, Gradle, Dynatrace

Xebia IT Architects Pvt Ltd

Job Title:

Client: MATT Branch Exam Platform

- Architected and developed Spring Boot microservices using Spring Data JPA Hibernate and JPA for backend application development and enterprise web application services

- Built R
percent un

Technologies Used: Java, Spring Boot, Spring Data JPA, Hibernate, JPA, Microservices, REST API, SQL, Spring Batch, Maven, Git, JUnit, Mockito, Agile, Scrum, SDLC

Tech Mahindra Pvt Ltd

Job Title:

Client: MGM Identity and Finance Platform

- Architected and delivered three critical microservices User Roles Month End Process and Month End Adjustment using Spring Boot and JPA reducing deployment times for new features by 40 percent

- Built S
authorizat

Technologies Used: Java, Spring Boot, Spring Security, OAuth2, OIDC, Okta, Spring Data JPA, Hibernate, JPA, Microservices, REST API, Maven, Git, Design Patterns, SOLID Principles

Client: SetPlex Media Monolith to Microservices Migration

- Drove end to end monolith to microservices migration decomposing legacy Java enterprise application into independently deployable Spring Boot microservices improving team deployment autonomy

- Devel
systems R

Technologies Used: Java, Spring Boot, Spring Cloud, Feign Client, Microservices, Mockito, JUnit, Maven, Git, Design Patterns, SOLID Principles, AOP, REST API

Napier Healthcare Solutions Pvt Ltd

Job Title:

Healthcare Information System - Microservices Transformation and Core Product Development

- Migrated monolithic hospital management Java application to Spring Boot microservices architecture using Spring Cloud and Feign Client for Inpatient Outpatient Pharmacy Lab and Inventory modules

- Devel
enterprise

Technologies Used: Java 8, Spring Boot, Spring Cloud, Feign Client, Hibernate, JPA, Microservices, REST API, SQL Server, JUnit, Mockito, HL7, Maven, Git, Agile, Scrum, SonarQube

Napier Healthcare Solutions Pvt Ltd

Job Title:

- Achieved MU2 Meaningful Use certification 36 of 36 criteria for US hospital healthcare compliance and security compliance enterprise system

- Devel
database

Technologies Used: Java, Spring, Hibernate, SQL Server, HL7, REST API, Maven, SQL

Napier Healthcare Pvt Ltd

Job Title:

- Developed backend features for dental practice management enterprise web application using Java Struts2 Spring Hibernate JSP Servlets and SQL Server database

- Implem
production

Technologies Used: Java, Struts2, Spring, Hibernate, JSP, Servlets, SQL Server, SQL, Maven, JDBC

KEY ACHIEVEMENTS

- Drove 2 enterprise monolith to microservices migrations across Healthcare and Media domains improving deployment frequency and team autonomy for distributed systems

- Archite
Spring Bo

EDUCATION

Degree: Master of Computer Applications MCA

University

CERTIFICATIONS

WORK AUTHORIZATION

Authorized to work in India

Open to R

TARGET ROLES

Senior Java Developer, Java Developer, Java Backend Developer, Spring Boot Developer, Microservices Developer, AWS Developer, Backend Engineer, Backend Developer, Software Engineer, Software Developer, Technical Lead Java, Lead Developer, Cloud Engineer, Application Developer, Enterprise Java Developer, J2EE Developer, API Developer, Server Side Developer, Distributed Systems Engineer, DevOps Engineer Java, Full Stack Backend Developer
